Tom and Floye Perkins, stars in Guignol Theater's next production, "Winterset," pose on the set during rehearsal.

## Dan Cupid To Share Lead With Tom And Floye In Guignol Theatre Production Of 'Winterset'

By Rosemary Hill

The world has long heard of the exploits of Dan Cupid, but few people have heard of his success in the field of dramatics. He has never missed a cut.

When the curtain rises on the Guignol production of Maxwell Anderson's "Winterset" on March 7, old Daniel will be playing the lead once again along with two of his star pupils, Tom and Floye Perkins, now Mr. and Mrs.

It was in the fall of '47 when Dan first became interested in dramatics. He happened to be in an acting class with Tom Perkins and Floye Mullineaux. He took quite a shine to Tom and Floye.

**Met Doing Same Roles**  
One night the class was doing a cutting of "Winterset" and Tom

and Floye had the leads of Mio and Miriamme. Daniel liked their performance so well that he used his trusty bow and arrow.

Three months later, on Feb. 6, 1948, Tom and Floye succumbed to Daniel's charms, and entered the sea of matrimony.

Tom and Floye are certain that Dan will never desert them, for when they tried out for parts in "Winterset" last month, Dan spoke to the director, and now Tom and Floye are Mio and Miriamme once again.

**May Join Theater Project**  
Tom, who is a senior in the College of Arts and Sciences, and an announcer on WLWX, is extremely interested in a theater project in Newman, Ga. This project, called

In the meantime, Tom and Dan Cupid are busy rehearsing for Winterset. Dan is certain that it will be a sellout.

**In the meantime, Tom and Dan Cupid are busy rehearsing for Winterset. Dan is certain that it will be a sellout.**

**Congress Considering New Library Aid Bill**

A Library Demonstration Bill was introduced simultaneously in both houses of Congress last week, according to information received by UK library officials.

The bill provides for a federal grant of \$40,000 each year for five years. This sum would be added to the \$25,000 now granted by the State of Kentucky to the State Library Extension Agency.

In the rural areas of Kentucky 85 percent of the citizens are without access to public libraries, according to Miss Elizabeth Hanson, vice-president and president-elect of the Kentucky Library Association.

"With the passage of this bill, we hope to have better library facilities which will be especially beneficial to rural areas, Miss Hanson said.

She stated also that a copy of the bill is on display in the library.

## Book Shelves Added To Library 'Stacks'

Additional shelves for library books are being added against the "inner stacks" room of the UK library.

The additional shelves will help to solve the problem of placing thirty thousand books which the library adds yearly. It is expected that ten to fifteen thousand books can be shelved in the new stacks. Shelves added in the past several years have almost eliminated space for study tables.

## Courtship, Marriage Are Subject Of Talks

Dr. Irwin T. Sanders, head of the sociology department, started his ten-week series of talks to the Pitkin Club. His subject matter concerns courtship, marriage, and the family.

Students who want to become members of the Pitkin Club may apply at the YWCA or YMCA office in the SUB.

## Membership Applications

An application for membership on Student Union Committees is on page three in the Kernel. Students should indicate three choices on the blanks which can be left at the Information Desk in the SUB, Miss Margaret Bruce, social director, announced.

The bill provides for a federal grant of \$40,000 each year for five years. This sum would be added to the \$25,000 now granted by the State of Kentucky to the State Library Extension Agency.

In the rural areas of Kentucky 85 percent of the citizens are without access to public libraries, according to Miss Elizabeth Hanson, vice-president and president-elect of the Kentucky Library Association.

"With the passage of this bill, we hope to have better library facilities which will be especially beneficial to rural areas, Miss Hanson said.

She stated also that a copy of the bill is on display in the library.

## Valentine's Day Insidious Plot, Cries Existentialist Student

By John Roberts

What is this thing called "love?"

Is it something that blossoms forth on a few days a year when someone tells us, "Go out and spread forth this joyous thing for I decree this day of love."

Do we have to be told that once a year we must love everyone and send each other beautiful cards saying so?

I have often wondered why we cannot show the spirit of St. Valentine's Day every day. And as I pondered it came into my thick skull that most of us do. We send our mothers, wives, sweethearts and other tokens of our love on the occasion we, or they, see fit. But comes Valentine's Day and our simple little hearts are filled with joy and our simple little heads are filled with dreadful thoughts of what may befall us should we not send "her" a token of love in the shape of a five-dollar box of candy.

Why not, I say, abolish it right here on the campus just as it began on a campus millions of years ago. It is our moral duty, students, to relieve the world of this by-product of intelligence begun by our fore-runners unknowingly.

## Highway Engineering Courses Are Planned

Plans to inaugurate special courses in highway engineering for each of the nine state highway districts will be started in the next few weeks, Dean Terrell of the College of Engineering has announced. The courses will be offered by the College of Engineering and the Department of University Extension.

The complete course consists of six classes, each of which will meet one night a week for 12 weeks. Students will be awarded a certificate by the University upon completion of the 12-week course.

Registration fees and instructors' salaries are to be paid by the State Highway Department and all class work will be under the direction of the department of University Extension. The College of Engineering is responsible for general supervision of the courses.

Other officers include John Whalen, executive vice president; Bill Champion, vice president in charge of membership and business; Kelly Bruce, secretary, and James K. Caldwell, treasurer.

## Want A Missing Link?

A message in this week's "Letters" column has some valuable words from a student who claims to have been here 10 years off and on.

Occasionally, but rarely enough not to become monotonous, somebody mumbles something about school spirit around the campus. Little is now known of this almost extinct virtue, and still less of the means of achieving it.

It's all forgotten lore, lost in the limbo of past generations who dwelt on the campus some cons ago, dating back at least to times before the War.

That's what makes this letter such a priceless document. If Mr. Martin really did start at UK in 1939, he may be the missing link that can prove, so to speak, a practical means of reviving campus traditions and the spirit that naturally brings forth.

Suky tried an interesting step Tuesday night when it brought up the ancient and colorful card section scheme for a trial. If it needs further hints on how the plan could be worked, perhaps it could get some ideas from Mr. Martin.

If any campus group is at all interested in reviving some of the harmless but entertaining UK customs, now's the time to get to work on it. Next fall's freshmen will be a young crop of students, and consequently eager. A campus organization with ingenuity and interest, if there be any such, could work wonders with them.

At least it would be a novelty from the present "service" schemes which consist mainly of lengthy resolutions (on paper) and campaigns to rid the lawns of cigarette butts.

Possibly UK has some traditions now, but they slip our mind at the moment. It would add a great deal in color and excitement to have, for instance, the proposed freshman cheering section at football games.

And that would be only a starter. There are plenty of other customs that would provide real kicks, yet at the same time not dent our dignity much by such retrogression into the distant past.

Of course, if nobody's interested, let's just drop the subject.

## Founders Day Exhibit

To see one of the most interesting displays you've seen in a long time, drop by the library and take a look at the exhibit set up for Founders Day.

Papers dating back to the University's origin are on display, including such articles as the original manuscript for "On, On, U. of K.," a letter from a former University president explaining why he had had a student arrested and later released, and many other interest-catching items.

The exhibit is well worth a look from any UK student.

## Not The Strait Jacket

While catching their breaths from the classification madhouse, students are taking those terrible days found to their surprise and delight that the number of registration cards had been greatly cut down.

Gone were the usual maddening cards asking one's preference in 4-H Club membership and the like, and great was the gratitude for the omission.

Now if there were only some way classification could be speeded up. It's bad on the blood pressure for scores of students to stand in a mob for a half an hour, 45 minutes, or longer, while one man calmly goes over each card handed in by each student.

making suggestions on the curriculum and possible graduation chances of each.

A few more workers would have cut down the bedlam considerably.

And speaking of bedlam, students who saw the movie, "The Snakepit," and who happened to look down at the gym floor from the top of the bleachers were in for a horrifying shock. The main reaction seemed to be, "Let's leave, quick, before they bring out the strait jackets!"

## Letters To The Editor

Dear Editor:

"Cad's" letter last week complaining about having to attend sorority open house gave me to laugh, once my wrath had died down.

In fact, that was the reaction of most sorority girls I talked to about it, namely: "Hah!"

In the first place, it was the fraternities, most definitely not the sororities, that wanted open houses.

In the second place, what under the shining sun gave "Cad" the impression that we enjoyed them in the least?

We are about as anxious to give one of these dull stupid functions as we are to keep a dentist's appointment. "Cad" would get an interesting insight into our reactions if he could hear the shrieks, groans, and cries of horror when they are announced at our meetings.

After we make all the tiresome preparations for one of these revolting afternoons, we have to get dressed, be checked in so as not to be fined, paste an artificial grin on our faces and wait for the arrival of the first bunch of oats.

Surf's enough, there they come, trooping awkwardly in, false grins on their faces, hats in hand. We suppress our muttered oaths and protests and wait for one of them to say, "Guip, hullo, Ida bring ye a bunch of posies of Ida thought" or "Rebob, chick, check them squares."

They never actually say that but one has the impression all afternoon that they did say that.

The only consolation is the refuge of one of the lads who already know and probably already date, and the two of you can sit quietly and compare the amount of your respective open house fines. And this, as "Cad" accurately observes, defeats the purpose of open houses.

"Cad" complains about being stuck with an enthusiastically collegiate pledge for an endless dull hour. How can you be stuck, dear boy, when it is you, not she, who must make the exit, graceful or otherwise?

And as for the young man's remarks about sorority pledges, what could be duller than being cornered by some fraternity pledge with an inane line, a creaking voice, and a name like "Frog" or "Slick" or "Bob" or something equally nauseating?

What could be more hopeless than approaching one as a hostess and asking, "Won't you have a glass of punch" and having him reply after a moment's hard thought, "Naw." Just "Naw."

Or saying to one by way of introduction, "My name's Sadie Smith" and have him reply gruffly, "So what?"

Or having one inform you, "We could dance, but I can't dance. We could play cards, but I can't play cards. So I reckon we'll just have to set here and talk." To which you smother your spontaneous reply, "Yes, if you could only carry on a conversation."

Or enduring a 50-minute mono-

logue in rogue's gallery dictions about what is wrong with everything, your sorority in particular.

It's too much. I'm a graduating senior, thank heaven, and will be spared these stupidities next year. But for the sake of other sorority girls, please, why not combine the open houses into one big pledge dance, for all pledges, since they're the only ones who could possibly derive any benefit from them?

If it hadn't been for "Cad" I would never have spoken up, and I'm certainly not condemning fraternity men in general.

No doubt it's one function of fraternities to sharpen up young bumpkins and dead end kids, but I for one am tired of wasting my Friday afternoons playing "Miss Minnie's Finishing School For Uncouth and Overgrown Youngsters."

Sincerely,  
MISS MINNIE HA HA

Dear Editor:

I read that hateful letter written by Cad in your last edition. His view on open houses is the view of only one man on this campus. If he does not like them why does he go? I believe he is one who does not even go to those parties.

Probably he is one that thinks Letr should be served at every open house.

He might be a big SENIOR but we who are freshmen caught not wearing his beanie or wearing his high school letter was promptly ducked in the pond by the engineers or football team, or by any group of upperclassmen.

But it didn't end there. Freshmen with their special freshman books were not admitted to football games unless they were wearing their beanie. They were admitted

at that time there was a small fish pond in the center of the Engineering Quadrangle and any freshman caught not wearing his beanie or wearing his high school letter was promptly ducked in the pond by the engineers or football team, or by any group of upperclassmen.

I also hope that someone at the next open house gives him a dose of cyanide, it would probably bring him to his senses.

I remain yours

A LOWLY FRESHMAN who will never know what it is like to make a standing.

LETTERS

After seeing the school spirit of the University of Kentucky get into quite an understandable slump for a couple of years following the war, I am happy to observe that SUKY and other school organizations are making an attempt to revive the lost school spirit.

Since I graduated Jan. 25, after being on the campus for 10 years off and on, I would like to make a few comments in my final letter to the editor.

In September of this year the first move in again requiring freshmen to wear the freshman cap and outlawing high school and prep school football players to wear freshman caps.

Or saying to one by way of introduction, "My name's Sadie Smith" and have him reply gruffly, "So what?"

Or having one inform you, "We could dance, but I can't dance. We could play cards, but I can't play cards. So I reckon we'll just have to set here and talk." To which you smother your spontaneous reply, "Yes, if you could only carry on a conversation."

Or enduring a 50-minute mono-

logue in rogue's gallery dictions about what is wrong with everything, your sorority in particular.

It's too much. I'm a graduating senior, thank heaven, and will be spared these stupidities next year.

Between the halves the card section was noiseless but the freshman pep section was noisier than the rest of the student body.

The block of blue hats was in itself colorful, but the freshman pep section was noisier than the rest of the student body combined.

Between the halves the card section was noiseless but the freshman pep section was noisier than the rest of the student body.

The other well-organized male groups on campus, e.g., the Engineering College and the Interfraternity Council, will have to help.

A system which was effective and which could be adopted again was the one in use when as a freshman I entered the University.

Let's make plans now to start off the freshman class of '49 with the same spirit that was instilled in the freshman class of '39. It has stuck with me for 10 years.

GEORGE C. MARTIN

To the Editor:

So the boys don't like to come to sorority open houses?

Isn't that a shame?

Hughes photo by Williams  
Clem Cockrel, poet and author, checks over his script for "Clem's Notehook" which he broadcasts weekly over WBKY and WLEX.

## Childhood Dream Starts Cockrel On Career Of Poet, Radio Artist

Did you ever dream a poem? Clem Cockrel did and it started him on a hobby which has lasted 11 years. When Clem (radio arts major at the University) was 12 years old he had a dream about a horse. Clem was so impressed with this dream that early the next morning he composed a poem about it. And he has been writing ever since.

While a junior in high school, Clem got on the air for the first time with a program of recorded music intermixed with his poems over a station in Bowling Green. Later he conducted a program of the same type for WOMI in Owensboro.

Shortly before entering the Navy, where he spent two years, Clem received word that his name was to be listed in "Who's Who in American Poets."

Returning from the service in '46, Clem enrolled at the University, studying radio arts because of his experience in broadcast work.

He now does a program for WBKY, the frequency modulation station, every Friday at 8:45 p.m. The program, currently carried over station WLEX, consists of Clem's reading his poems to a background of music, and is similar to WLW's "Moon River."

Clem plans to take up announcing as a career after his graduation in addition to free-lancing his poetry. At the present time, he is working on a book of poems for Avon House Publishing Company.

What does he do in his spare time? Why he's working on a novel. Wonder if he dreamed that, too?

### LETTERS

(Continued from Page Two)  
a favor to fraternities. And this well-named CAD complains.

What about us? Sorority girls despise open houses, too. They're the ones who have to make the arrangements and afterward straighten up the house. It might be a pleasure to entertain under some circumstances, but not when nobody enjoys the parties.

Not only do we have to stand around three hours talking to people we don't care anything about, but we are in a bad humor for our dates that night.

Besides, did you ever stop to think that we might enjoy spending our Friday afternoons drinking beer, too?

CHARLES WHALEY

Dear Editor:  
I think you should be taken to task for publishing such an atrocious letter as the one attacking sorority open houses last week.

Obviously the writer was a paranoid schizophrenic type of personality who was under the influence of some exotic drug at the time of the writing. No person in his sane mind could ever belittle the social efforts of our fair UK womanhood.

All fraternity men that I know, including myself, enjoy open houses very much and hope that they will continue into eternity. "Bah!" say we of like sentiments who think your letter-writer is, as he signs himself disgustingly, a CAD!

CADESS

Dear Editor:  
In last week's Kernel, I wrote a letter proposing that photographic courses be taught here at the University. I think that the response thus far shows that there is a decided interest in such, enough to warrant an editorial concerning the photographic courses.

I wish to thank those who wrote postcards to Box 1364 to show their interest.

It has been suggested that Prof. Nolleman would be an excellent teacher for photographic courses.

I am still receiving names of students wanting such courses, but intend to post a sheet in the post office for additional names.

JOHN D. BEATTY

## Faculty Personals

### Godbey Addresses Group

Gordon C. Godbey, of the Extension Department, was guest speaker at a district meeting of the Vocational Agriculture Teachers of Kentucky recently.

Godbey and Dr. Gifford Blyton, associate professor of speech, instructed one-day speech clinic at Stanford High School, Jan. 28.

### Penrod Discusses Pump

Prof. E. B. Penrod, head of the department of mechanical engineering, discussed the heat pump at a meeting of the Kentucky Society of Professional Engineers, Feb. 4.

### Brauer Returns

Dr. Alfred Brauer, professor of zoology, has recently returned from Oak Ridge, Tenn. where he has been doing scientific research during a leave of absence.

### Brady At Faculty Club

Dr. George K. Brady, professor of English, discussed his experiences as a member of an educational-cultural mission to Japan at a dinner of the Faculty Club, Feb. 4.

### Fraternity Names Stein

Dr. Edwin E. Stein, head of the music department, has been appointed province governor of the Phi Mu Alpha music fraternity chapters in Kentucky, Tennessee, Arkansas, and Alabama.

A biographical sketch and picture of Dr. Stein will appear in the spring issue of the fraternity magazine, *Sinfonia*.

### Baker On Louisville Program

Prof. W. Maurice Baker, of the College of Education, took part in a symposium on "Kentucky's Tourist Potential" which was presented on the program of the Kentucky Petroleum Marketers Association Tuesday in Louisville.

### Dear Madam Editor:

Isn't anything ever done around this place for the convenience of students? I begin to wonder after seeing the pieces of nasty-looking lead pipe which have recently been added to the decorations in front of Patt Hall.

These pipes were installed at intervals which even a teensy-weensy Crosley can't squeeze through on its way to the grassy parking place under the trees in the Patt Hall circle. This means that Cadillacs, Buicks, Oldsmobiles, Fords, Chevrolets, and all other makes and pieces of cars must be parked as far as a block from the dorm. The last precious 60 seconds before closing, once spent peacefully on the porch with my date, are now spent at a gallop up the driveway praying that I won't have to carry her the last half-mile.

If the wheels of administration are trying to solve the "parking" problem, they are only taking it a few hundred feet away—right out from under their noses in fact.

If Gineen Pearl McFish were back, I am sure she would call her cohorts to arms to see that the pipes were promptly uprooted and peace and quiet restored in front of Patt Hall.

An avid reader,  
PHIL

### Musicians Wanted

Anyone who wants to play in the University symphony orchestra should contact Dr. Edwin E. Stein, head of the music department. There are several vacancies in the string sections. The orchestra is holding rehearsals in the music annex on Tuesday nights.

### Dr. Riley Granted Leave

Dr. Herbert P. Riley, head of the department of botany, has been granted a six-months leave of absence to do advanced research at Oak Ridge, Tenn.

### L. L. Martin Appointed

Leslie L. Martin of Bloomington, Ind., has been appointed assistant director of personnel by the Board of Trustees. The appointment became effective Feb. 1.

### L. H. Horn Jr. Resigns

The resignation of Lindsey H. Horn, Jr., technical assistant in the department of animal husbandry, has been accepted by the Board of Trustees.

Mr. Horn resigned to accept the position of assistant professor of animal husbandry at Mississippi State College.

### Professors Attend

Dr. Paul Philippe and Dr. Statie Erikson, of the College of Agriculture and Home Economics, attended a meeting of the Southern Agricultural Workers at Baton Rouge, La., from Jan. 31-Feb. 3.

### Chamberlain's Book Published

Dr. Lee M. Chamberlain, vice-president of the University, and Dr. Leslie W. Kindred of Temple University have published the second edition of "The Teacher and School Organization," a textbook for college education courses.

### Spokes Returns From Tour

Earnest M. Spokes, graduate assistant in the mining and metallurgy department of the College of Engineering, has returned from a lecture tour in Benham.

The tour is a phase of the Adult Education program of the International Harvester Company.

Mr. Spokes lectured on the geology of coal to over 275 employees of the company.

On Feb. 14 he will continue his program in Benham with a lecture on "Prospecting For Coal."

### Tompkins To Be Discharged

Sgt. Major William A. Tompkins, member of the University's military science department, will receive his army discharge this month.

Sgt. Tompkins has been with the ROTC staff for three years. He will re-enter civilian life as a representative of the Investors Syndicate.

### Governor Names Stahr

Elvis J. Stahr, dean of the College of Law, was chosen by Governor Earle C. Clements to serve on the Constitution Review Commission.

This committee will study ways and means of bringing Kentucky's constitution up to date.

### Staff Members Attend

Eight professors of the mechanical engineering department, attended a conference sponsored by the Diesel Engine Manufacturers Association in cooperation with the American Air Filter Company and the C. Lee Cook Manufacturing Company in Louisville Tuesday.

The University's representatives were Prof. E. B. Penrod, Prof. W. M. Carter, Prof. M. Baker, Prof. R. B.

## University High Teacher Aided Revision Of German Curricula

Aiding Bavarian social studies teachers to revise curricula and bring textbooks up to date was the work of Miss Peck, of the University High School faculty, while on a five-month leave of absence during which she served on an educational mission to Germany.

On her tour of duty she was assigned to the education and cultural relations division of the Office of Military Government. Though her headquarters were in Munich, she also conducted teacher conferences in Augsburg and Nuremberg.

Text Omitted World Wars

Miss Peck explained that German history textbooks seldom went beyond the Bismarck period, and omitted all references to World War I and events leading up to World War II.

German educators have been assigned the task of writing new texts which are to be up to date and free of Nazi doctrine. American teachers make a careful check of these books to see that they fulfill Military Government specifications.

Meetings with German teachers had to be scheduled for late afternoons or early evenings because a shortage of classroom forces all teachers to meet with two sessions of students daily, said Miss Peck.

There is also a critical teacher shortage caused primarily by the death of many young teachers in the war and the weeding out of others because of their Nazi backgrounds.

Stable Currency Needed

In the opinion of the University high school teacher, the Military Government policy of democratizing Germany is working satisfactorily.

Night, O. B. Gard, H. W. Estill, C. D. Jones, and Dwight Tenney.

### Stahr Speaks In Frankfort

Dean Elvis J. Stahr of the College of Law, addressed the Frankfort Forum Feb. 9. Dean Stahr spoke on the "Situation in China."

### Thompson Addresses Club

Dr. Lawrence S. Thompson, director of libraries, spoke at a meeting of the Lexington Co-Operative Club recently. His subject was "Effects of War on German Libraries."

Dr. Thompson is also the author of the guest editorial in the latest issue of the Stecher-Hafner Book News publication of G. E. Stecher and Co., the nation's leading importer of foreign books.

### Thompson Talks To Club

cloak-and-dagger stories of World War II were discussed by Dr. Lawrence S. Thompson, director of University libraries, at a meeting of the Men's Club of the First Methodist Church, last Friday.

Sgt. Tompkins has been with the ROTC staff for three years. He will re-enter civilian life as a representative of the Investors Syndicate.

### Webb Addresses Sigma Xi

Elvis J. Stahr, dean of the College of Law, has been chosen by Governor Earle C. Clements to serve on the Constitution Review Commission.

This committee will study ways and means of bringing Kentucky's constitution up to date.

### Staff Members Attend

Eight professors of the mechanical engineering department, attended a conference sponsored by the Diesel Engine Manufacturers Association in cooperation with the American Air Filter Company and the C. Lee Cook Manufacturing Company in Louisville Tuesday.

The University's representatives were Prof. E. B. Penrod, Prof. W. M. Carter, Prof. M. Baker, Prof. R. B.

## SOCIETY

## The Spice Of Life

By Ruby Graham and Jobie Anderson

As the Phi Taus always say, it's certainly good to be back among the magnolias — especially since there won't be any finals to think about for another few weeks. Nothing to do any more but sweat out lines!

Hearts are saddened by the passing of Cliff Miller to a locale where he can loaf without being disturbed. By the way, Cliff struck a new note in fashion Saturday night when he went out to mail a letter to Pat—overcoat minus trousers.

A charming SAE is wearing bandages on his feet — the walk from Danville was plenty far.

Betty Ann Stoll seems to like Jack Spratt's "White Lightning."

Jim Hibbard is smiling from ear to ear these days. Fran Nyquist is back on campus.

Bugs Bartee and Betsy Milton are back this semester — both unattached. Two returns from Covington are Lois O'Brien and Carl Faith.

Lou Fanning is gone but not forgotten.

After five years at UK, Dick Beal decided he just couldn't tear himself away. He'll cheer the Sigma and Chi clan for one more semester.

## TIPS ON TOGS

By Link

**I**T'S BETTER . . . you thought I was dead or sompin' but I am still alive and kicking (even if it is with only one foot) and I certainly have missed writing this little bit of chit chat and nonsense. You see I took myself off on a wee bit of a vacation and am just now getting back to the normal run of things . . . had to come back . . . money ran out.

**EARLY BIRD** . . . catches the worm and the person that does their Spring Suit shopping early catches the plumb . . . so to speak. I have received some of my new Spring Suits by TIMELY and I'll put their PLATEAU cloth suits up against any on the market. It is known as "the suit with the weightless feel." This suit can be worn the year round and in that way you get your full dollars worth. What colors does it come in? Well, it comes in Dark Brown, Light Tan, Beige, Navy Blue, Grey and Green. If you are down town and have nothing else to do . . . drop in and give them the quint . . .

**CARDIGANS** . . . While I was on my little trip, I noticed lots and lots of Cardigan coats and suits being worn by some of the sharpest dressers (and you know me . . . I couldn't resist so I got one in Navy Blue with matching slacks) These suits give you that dress look with a casual air. I have ordered some of these sets for the store and if I don't have your size and color, I can order it for you. ESQUIRE and PIC are playing them up for Spring and Summer and that's good enough for me.

**THANKS** . . . to the Inter- Fraternity Pledge Council Committee, for asking me to dance in their show last Friday night at Joyland Casino. Twas an honor.

So Long For Now

Formal Planned  
By Lambda Chi

Lambda Chi Alpha will hold its winter formal tonight from 9-12 in the Ballroom of the Phoenix Hotel. The dance was formerly scheduled for the Fireside Room.

Tinker Baggerley and his orchestra will play.

Chaperones are Mrs. Theodore Douglas, Mrs. Esther Carver, and Mrs. Vera Byrd.

Approximately 200 guests are expected at the dance, which has been arranged by Art Idleman, social chairman.

## Faculty Honored At Tea

The faculty will be honored with a tea at the Sigma Nu chapter house on Euclid Avenue Sunday afternoon from 4-6.

J. V. Larkin is chairman of arrangements.

Engineering Library  
To Hold Open House

An open house was held in the new engineering library during the holidays to mark the transfer of the library to its new location on the second floor of the southeast wing of the new engineering building.

The library was formerly located on the first floor of the old section of the quadrangle. The capacity of the library has been increased to accommodate sixty readers at one time.

Faculty members and students were guests at the open house.

## Sig Eps To Entertain

Sigma Phi Epsilon will honor the faculty with a tea at the chapter house on Aylesford Place Sunday afternoon from 3-5.

All members of the faculty and staff are invited.

Survey Shows Education Majors  
Stress Importance Of Teaching

More than half of the University of Kentucky students currently preparing themselves for a teaching career give as their chief reason for doing so "the importance of teaching."

"Strangely," Dr. Hartford remarked, "such matters as teacher pay, security and status ranked no higher than seventh, eighth, and eleventh, with totals of 70, 64, and 48 respectively."

That primary motive along with other reasons mentioned by the students was revealed in a recent survey conducted by Dr. Ellis F. Hartford, professor of education at

Dr. Hartford has long been of the opinion that the basic reasons impelling college students to enter the teaching profession would be of great benefit to educators.

**Why The Lack Of Interest?**

We realize," he said, "the importance of studying the reasons underlying the lack of interest on the part of potentially good candidates. Conversely, the basic reasons for the choice of teaching by education students should also be the subject of study by educators who are concerned with problems of teacher selection and recruitment."

**Convinced** of the practicability of gathering such information, Dr. Hartford two years ago began interrogating students who had successfully completed the introductory course in education at UK as to why they had chosen teaching as a career. Since then he has compiled the answers given by 207 undergraduate students—103 men and 104 women. The average number of reasons submitted by each student was five.

**Teaching Important Work**

"Teaching is important work" was the most frequent response, being given by 106 students. Second and third places went to "Interest in and liking for children" (92), and "teaching is interesting work" (69). Fourth and fifth choices were "teaching offers great personal satisfaction" (80), and "teaching offers opportunity for advancement."

## UK's Prof. W. G. Haag Supervises Indian Excavation At Wolf Creek

Supervision of the excavation of an Indian mound site in the Wolf Creek dam area has been the job of Prof. William G. Haag, who has recently returned from a field trip begun in August.

From archaeological remains uncovered there, the Cumberland river valley near Wolf Creek appears to have been the most densely populated area in prehistoric Kentucky, the University professor reports.

### First Farmers of Kentucky

Remains indicate that two different peoples once resided there. The first, a group of primitive agriculturists, probably were primitive in the Indian civilization common in the eastern United States from approximately 900 to 1500 A.D.

They were succeeded by a tribe who migrated to Kentucky from the south, possibly from Mexico, and established themselves at the Cumberland river site where they remained until about 1700. This second group belonged to the type of Indian civilization encountered by such early explorers as Fernando De Soto, Prof. Haag points out.

### Mound Builders

It was these people who built so-called "temple mounds," a sort of flat-topped pyramid which they used as foundations for community meeting houses. Periodically, the Indians would deliberately destroy the house, probably, Prof. Haag says, on the occasion of a tribal chieftain's or medicine man's death. On the ruins another structure would be erected, only in its turn, to be destroyed and replaced by a similar one.

This custom of alternately building and destroying on the same spot resulted in a stratified deposit which, when excavated, gives an accurate picture of the culture of the early Kentuckians, and also enables archaeologists to trace the progressive changes that took place in the Indian's mode of living.

### Architecture Revealed

The Wolf Creek excavation reveals plainly the architecture used by the Indians who lived there in the 16th and 17th centuries, Prof. Haag said. Ditches about seven inches wide and 36 inches deep were dug, and into them were placed upright poles about six inches in diameter.

The poles were interlaced with saplings or vines and then plastered with mud both inside and out, thus forming the walls. Three poles, usually about a foot and a half in diameter were placed in the middle of the structure to support the roof, which often was 20 feet above the floor.

### Site Will Be Flooded

There are approximately 50 of these mounds in the Wolf Creek area, all of which will be flooded when the dam is completed, Prof. Haag reported. He plans to return in the summer and get in two or three more months of excavating before the site is lost to further excavation.

### Physics Group Feted

New members of Sigma Pi Sigma, physics honorary society, were honored recently with a banquet in the Student Union Building.

Honorees were Russell M. Barnes, Graydon D. Bell, Samuel T. Bryant, Ernest L. Coulter, Thomas B. Deen, Hubert L. Ernst, David S. Fields, Michael Golben, Robert Habermehl, Robert D. Hayes, David C. Henningsen.

Phalanx fraternity is conducting a drive to collect old phonograph records to be given to local orphans.

Phalanx members will contact all fraternities and sororities within the next few days. All other groups and individuals can turn in their records to the YMCA office before noon, Feb. 16.

## War Surplus Material Widely Used At UK

The University of Kentucky, along with other educational institutions in the nation over, has benefited greatly from the federal government's program for disposition of war surplus materials.

Since October, 1945, the University has received, exclusive of buildings and building materials, property worth more than \$3,500,000 on a government fair value basis. To replace this property at today's inflated prices would require a far greater sum.

### Cost About Five Percent Value

The total cost of this property to the University has been \$183,000—about five percent of its value as fixed by the government—and this includes installation costs of much heavy machinery. When labor costs are deducted, actual cost of the surplus property becomes a great deal less than \$183,000.

Most of the material was obtained through the War Assets Administration and the Federal Works Agency under one of three plans: some being purchased at a 40 percent discount, some at 95 percent discount, and some having been received at no cost other than freight charges.

### Many Get Equipment

Many departments of the University have received equipment through the war surplus program which limited budgets had before denied them, thus making available to students training and instruction which otherwise could not have been offered them.

### Lab Equipment

Generous allotments of supplies and valuable laboratory equipment have gone to both the chemistry and physics departments.

### The University Infirmary

The University Infirmary, too, has shared the benefits of the war surplus program, receiving a long list of medical supplies and other essentials ranging from hospital beds to shower slippers.

In almost every office on the campus there are war surplus desks, chairs, typewriters, filing cabinets,

### Treasury Investigator Warns Of Danger In 'Live' War Relics

Six thousand persons are being killed yearly in the United States by war trophies ranging from small arms to 155 millimeter shells.

Walter Carroll, an investigator for the U. S. treasury Department, said there are still hundreds of thousands of dangerous weapons in American homes. Although more than a half-million such weapons have been deactivated, he said, "We haven't scratched the surface yet."

### Fatalities Mainly Children

Appealing to war veterans to turn in explosives and arms for deactivation, he estimated that 80 percent of the fatal accidents have involved children.

### "For the Sake of the Youth of

America," he added, "bring in your weapons."

Another serious menace, said Mr. Carroll, is the use of foreign firearms, including many war trophies which have been obtained in various ways, by criminals. About 75 percent of present day crimes are committed with these weapons.

### Scoutmaster Job Open

Any UK student who is interested in being an assistant scoutmaster, Boy Scouts of America, should contact Bart Peak, YMCA secretary, at the Student Union Building.

## "WILL IT RAIN TONIGHT?"

... everyone wants to know, but military and air-line pilots must know and know promptly!

To help transmit this information, the Bell System maintains the largest facsimile transmission system in the world . . . a network nearly 20,000 miles long.

Over these wires the United States Air Force, in cooperation with the United States Weather Bureau and other government agencies, is able to send up-to-the-

minute weather charts and maps to many points simultaneously. Each receives a faithful reproduction of the originals. The chance for error is eliminated, valuable time is saved.

This network is a part of America's vast communications system—the finest in the world. The job of maintaining and improving this system, of keeping the cost of telephone service as low as possible, never ends.

BELL TELEPHONE SYSTEM

## 6 Bama And Ole Miss Meet Cats Next Week

By Danne Saunders

Kentucky's top-ranking Wildcats will try to make it two in a row over Alabama and Mississippi next week in games scheduled for Alumni gym. "Bama makes its appearance Monday, and Ole Miss comes here Wednesday.

Beats are trying to raise their season record to 21 wins, and one loss, the Cats will be going after their ninth and tenth conference wins of the period and their 70th and 71st conference wins over a five-year period, and their 50th and 50th consecutive victories on the home court.

On February 2, in Tuscaloosa, Kentucky had to solve Alabama's ball-hogging tactics, before putting away in the second half to win 56-40. The following night in Memphis, the Cats trounced Ole Miss, 75-45.

Playing on their home court, the Cats are expected to have little trouble with either team, although Coach Rupp is wary of the Tide's slow Oklahoma Aggie type of ball, and probably expects them to offer the stiffest competition. In Alumni gym, however, it is doubtful if the Tide will have much luck in slowing down the play, unless they decide never to shoot. The Rebels should afford the Cats nothing but a stiff scrimage.

In the first game against Bama, Groza tabbed 23 points, Jones 13, Barnstable and Barker six each, and Hirsch and Beard four each.

Guard Dick McKenzie paced the Crimson cavers with 13 points.

Coach Floyd Burdette's team has won ten and lost eight against exclusively Southern competition. Mutual foes of Kentucky and Alabama have been Georgia Tech, Tulane, Vanderbilt, and Ole Miss.

Tulane, beaten twice by Kentucky, and once by a landslide, barely took a 51-46 victory from the Tide. Ole Miss nosed them out, 42-37. Vandy did the same thing, 36-31, and Tech beat them soundly, 51-38.

It is interesting to note that Oklahoma A & M, the team whose style of play is copied by Burdette, had plenty of trouble before winning 44-31 over them. The Aggies are currently rated third in the nation.

Bama Coach Is Ex-Murray Star

The Alabama coach, Floyd Burdette, graduated from Murray Col-

ALEX GROZA, UK's 6-8 pivotman, is currently the nation's top collegiate basketball player. He has hit over 20 points in each of his last six games and has scored a total of 355 points so far this season in 19 encounters.

## Ruppmen Whip Bradley, Tennessee; Groza Breaks SEC Scoring Mark

By Kent Hollingsworth

The clock stopped with a minute and a half to go as Tennessee's Bob Keesling shot a free throw.

Coach Rupp rose from the bench and motioned to Barker to call time.

As the players surrounded him in front of the bench, the man in the brown suit said, "Now boys, let's let Alex get a couple of points here. He's got 30 and only needs two more for a conference record . . . so feed Groza the ball."

Wall Hirsch passed to Groza as soon as the ball was brought into the Kentucky end of the court and Big Al was fouled by Ed Montgomery, trying to get away a shot.

As the 6'8" senior lifted his first

free throw through the hoop all 3200 students shrieked encouragement; his second hit the front of the basket and toppled in to set a new SEC scoring record.

The Volunteers quickly took the ball out and in a rush to score, sent up a wild shot. Cliff Barker nabbed the rebound and threw a baseball pass the length of the floor to Groza. Who turned and missed an easy lay-up shot. A gymful of fans groaned as Big Al scrambled to the other side of the basket and grabbed the rebound from two Tennesseeans and put in a shot that no one but a contortionist wrestler, or Alex Groza could have scored on.

Thirty-four points.

Cats beat Vols, 71-56.

Tennessee fell for the second time this season as the Wildcats racked up their ninth SEC win of the year, 71-56.

All-Conference Paul Walther led the Volunteers, who closed the gap

to 40-46 with seven minutes remaining. He scored 21 points, 12 of them on his famous left-handed jump shot at the foul circle.

Hugh Jones did most of the ball handling for Tennessee and stashed away 11 points. Big Art Burris took all the rebounds Groza left.

Ralph Beard, playing on a sprained ankle, ran around Walther twice for layup shots.

More than 150 students were turned away from the Cats first home game in almost two months . . .

Sophomore Walt Hirsch started his second game of the season . . . Barker attempted another long-long, long shot as the final buzzer sounded and missed by inches.

Kentucky-71 Tennessee-56

WAH WAH JONES

## Kentucky Basketeers:

### Wah Wah Jones

By Dudley Saunders

So much has been written about the incomparable Wah Wah Jones that we felt rather awkward when we started writing this article. Almost as if we were announcing in 1949, the invention of the airplane.

Wah's exploits for the past several years is common knowledge to every butcher, baker, and candlestick maker this side of Tum-

bullet. Every society matron knows that he has been a varsity regular in football, basketball and baseball for four years, and that he is the greatest all-around athlete in Kentucky — and possibly American — sports history. Most clergymen know that Wah twice scored more than 800 points in a year playing for Harlan High School, and that he scored 2398 points there, which is a national record. And it is pretty common knowledge that he has scored more than 1000 points as a Wildcat basketeer.

Wah first played on a team when he was in the third grade. He was small and had to play guard, but he did so well that he won a small bronze basketball—the first of many trophies he has collected in fourteen years of competition, and still his favorite.

In high school he was moved to forward, and it was there that he made his reputation as a high-scoring and rebounder. Upon his graduation from high school, he was swamped with offers from colleges all over the country.

There is a love story behind Wah's coming to Kentucky.

For a while it looked as if he would go to Tennessee, where his brother Hugh eventually made camp. But Alva Ball, Middlesboro, Ky., businessman had a pretty daughter named Edna, and it seems that Edna was already engaged at Kentucky.

Wah decided that Tennessee, or for that matter, any place without Edna would be just the opposite of heaven. So, Wallace Jones came to Kentucky, and Kentuckians have been thanking Edna and Wah ever since.

They were married in July of 1947, right after she graduated from UK. While Wah has been conquering the sports world, Edna has been content to be the hero's wife and later the mother of Wallace Jr.

He was pretty worried at the beginning of the season after he got married, for fear of having a bad year. He knew that married life would get the blame for it.

But, it seems he was as good as ever in both football and basketball.

Jones entered Kentucky in September, 1945, and because cage practice was several weeks off, he decided to try his luck with the

football team. He reported to Berne Shively, then Kentucky's head gridiron coach, and with three days practice, won a starting berth against Cincinnati, to the pleasant surprise of everyone concerned, and held it the rest of the season.

Paul Bryant came to Lexington the next year as head football coach. The Wildcat gridironers had their best season in years, and Wah won All-Conference honors at end. The Central Press named him to their All-American team.

His gridiron activities were slowed considerably in his junior year by an appendectomy. But last fall he had another fine year in football, winning all-conference second string honors against the best over-all competition seen in the SEC since before the war.

#### Helps Win NIT

After his freshman gridiron campaign, Wah changed hurriedly into his basketball togs and had little trouble winning the starting call! as Rupp's pivotman. The Cats won the NIT that spring, nosing out Rhode Island, 46-45, and Wah won All-SEC honors. He got 290 points that year.

The following year, All-American Bob Brannum and Alex Groza returned from service, but Jones earned the pivot slot over both of them in the fourth game of the season. A sprained ankle knocked him out of the running for a while, but before long he was wrestling with Brannum and Groza over the pivot again.

Brannum later left Kentucky. Groza finally took permanent possession of the pivot, and Jones took a permanent strangle-hold on a forward berth.

He finished the year with 217 points and another All-SEC berth.

#### 1022 Points

Last year, he finished as third high scorer on the team, with 335 points, and his third All-Conference berth. He was on practically

## DisKintucky Sports Review

— By Tom Diskin, Sports Editor —

The Kentucky Wildcats' 68 consecutive wins in Alumni Gym almost certainly constitutes the longest record ever made by any college team past or present, on a home court.

However, there are two other teams that have compiled lengthy chains of consecutive home triumphs.

Westminster College, of New Westminster, Penna., now have won 54 straight home games. They have five more tilts left on their court, with Washington and Jefferson their only quintet having a fair chance to knock them off.

Another is West Virginia University, of Morgantown, W. Va., whose basketball team has now copped 51 consecutive wins in the WVU gym. No. 50 was an 81-63 whipping of the strong Cincinnati Bearcats.

The West Virginia Mountaineers have six contests remaining in their gym, one being with Washington and Jefferson and another with Pitt. These two teams are given just a slight hope of upsetting the high-scoring West Virginia five.

The Cats last defeat was a 45-40 decision by Ohio State in January of 1943.

Gayle Talbot, of the Associated Press, summed up the country's top basketball teams thusly:

"Kentucky's wonderous Wildcats poured it on four more rivals last week, and just about convinced the nation's basketball experts that they are the best of the college fives."

Meanwhile, Time and Life seemingly went all out to make Easy Ed Macaulay the outstanding player of the year, while St. Louis Billikens' the nation's top team.

For in the Jan. 3 issue of Life, a four-page spread was given Macaulay, including a full page of him in color.

Hamline, rated No. 5 in this poll, is certain to drop down considerably after its defeat Monday by St. Thomas College, 45-33. Hamline was the last of the country's unbeaten teams.

Hamline is AP's rating of the teams:

1. Kentucky; 2. St. Louis; 3. Oklahoma A and M; 4. Illinois; 5. Hamline; 6. Western Kentucky; 7. Minnesota; 8. Tulane.

For G. S. Simpson, The St. Louis Billikens have two seniors and three juniors on its starting quintet. Easy Ed Macaulay, 6-8, and 8-6 Marv Schatzman are playing their final season.

6-3 Joe Ossola, 6-2 Bob Schmidt and 6-1 Lou Lehman, other starters, are all juniors. Incidentally, these

everybody's all-American second or third team.

Thus far, he has 180 points in 17 games this year, to give him a four-year point total of 1022 points.

Wah rounded into cage condition faster than ever before, this season, and his fine play was largely responsible for Kentucky's early-season winning streak over the nation's best teams.

His ball-handling and rebounding is better than ever before, and his shooting eye seems to have improved also. Wah is notoriously a great clutch-player, turning in his best performances when the chips are down and every point counts.

Kentucky fans have gotten used to Wah playing his best ball during the post-season tournaments, and needless to say, they and Coach Rupp are counting on him more than ever when the tournaments start next month.

five players all hail from the city of St. Louis.

Western Kentucky has only two seniors on its squad—6-2 Charley Parsley and 6-2 Johnny Oldham. 6-6 Bob Lavoy, starting center, is a sophomore; 6-5 Buddy Cate is also a sophomore, while 6-5 Roy Mann is a junior.

Xavier's head cage coach, Lew Hirt, is in his third season at XU. He was graduated from DePaul in 1935. Later, in 1936-37, as basketball mentor at Hamilton Public High, his hardworkers won the State championship. Nine years later, he produced a great team at Hamilton Catholic, which won 21 straight tilts but later lost out to Middletown in the state tourney.

In 1946-47 Hirt's Xavier Musketeers had a 7-17 record. Last season they finished with a 24-8 mark and came fourth at the NAIB meet in Kansas City. (University of Louisville was the winner of the NAIB.)

The March issue of SPORT magazine, one of the top sports publications in the nation, will have UK's Ralph Beard on its cover. A feature story on the Louisville lad will also be contained in the same issue.

SPORT Magazine recently sponsored a selection board of experts who named Alex Groza as basketball Top Performer for 1948. Groza was featured in the December issue of this magazine.

Meanwhile, Time and Life seemingly went all out to make Easy Ed Macaulay the outstanding player of the year, while St. Louis Billikens' the nation's top team.

For in the Jan. 3 issue of Life, a four-page spread was given Macaulay, including a full page of him in color.

## Intramural Sports

By Tom Spillman

Monday night, in Alumni gym, action got under way in the Intramural round-robin basketball tournament.

There are 26 independent teams, divided into four divisions, and 18 fraternity teams divided into three divisions.

At the conclusion of round-robin play, teams will be selected to play in an elimination tournament.

The independent teams in Division One are: "K" Club, Panthers, Varmits, Marathons, Law School, Ramblers, and BSU.

Division Two contains the following teams: Brook Hall, Demon Terrors, No. Kentucky Turtles, Bengles, Tri-Y, Brown Bears, and Porterites.

The six teams which are included in Division Three are: Kinhead Hall, Ingleside Traiter Park, Duke's, Dragons, A.S.M.E., and Golden Eagles. The Fourth Division is composed of Bradley Hall, Y.M.C.A., Boilermakers, Shmoos, Generals, and the Independent Students.

For the fraternities, Division One contains: SX, SPE, FSK, DX, KA, and ZET. Division Two has: SAE, LTD, KS, ASP, SN, and Triangles. The last section of fraternity teams is made of the following: PDT, LXA, PKT, AGR, ATO, and FKA.

Last Monday night, two expected strong teams were defeated. SAE lost to DTD 24-23, and SX was defeated by SPE 31-29.

Other scores of the night are:

PDT 17, LXA 14  
KA 27, DX 20  
SN 14, ASP 13  
PKA 23, PKT 21  
Triangles 27, KS 24  
ZBT 24, PSK 15

Games scheduled tonight, Feb. 11, are PDT-PKT, LXA-AGR, PKA-ATO, Triangles-SN, "K" Club-Varmits, BSU-Marathons, Ramblers-Law School, Brook Hall-No. Kentuc-

ky Turtles, Porterites - Bengles, Brown Bears-Tri-Y, Kinhead Hall-Dukes, and Ing. Traiter-Dragons.

Featured on Tuesday night's card will be: Golden Eagles-ASME, Bradley Hall - Boilermakers, YMCA - Shmoos, and Independent Students-Generals.

## Wrestling

Below are listed the winners and runner-up in each weight division of the Intramural wrestling tournament held at the end of last semester.

In the 115-pound class, Street (AGR) was winner and Bob Foutt (SAE) the runner-up. Phil Kingsbury (SAE) defeated Jim Bradley (SX) for the 125 pound title.

For the 135-pound section, Gully (AGR) took the measure of Jack Moon (SX). To win the 145-pound division, John Benson (ATO) defeated George King (KS).

Ernest Wake (Ind.) beat Manly (AGR) in the final match of the 155 pound class. Gordon Menne (SZ) was disposed of by Dyre Rodes (SAE) in the 165-pound division.

Sigma Chi won both spots in the finals of the 175-pound class where Ray Meyer defeated Harry Gorham. Heavyweight title went to Turner (AGR) when he took the measure of Dave Beam (DTD).

The top four teams at the end of last semester, according to the point standings are: SX-115, DTD-86, SAE 80, and AGR-30. Included in the points are: touch football, tennis, golf, volleyball, ping pong, free throw, and wrestling.

Looking ahead a few weeks, Bill McCubbin, IM director, has plans to open a badminton (singles and doubles) and a bowling tournament.

Entries to these contests must be in by noon of Friday, March 11, and play begins in the two on Monday, March 14.

## Ex-Wildcat Star Ken Rollins Named On Pro All-Frosh Team

Ken Rollins, who was captain of the Kentucky Wildcat basketball team for the 1946-47 and the 1947-48 seasons was recently named on the Basketball Association of America (BAA) all-freshmen team by Joe Lapchick, famed coach of the New York Knickerbockers pro cage aggregation.

Now playing with the Chicago Stags, in the BAA League, Rollins was named at one of the guard posts along with Walt Eudko, former Columbia player, now with the Baltimore Bullets.

Lapchick placed Ray Lumm, who was a member of the U.S. Olympic team last summer and now with Indianapolis, at the forward position with Bowie Shannon (ex-Kansas State) of the Providence Steamrollers.

Ed Mikau, formerly of DePaul and now on the Chicago Stags, was named at center.

Says Lapchick: "Only now, when you see him in our league do you realize just what Ken Rollins meant to the University of Kentucky team for the past three years. The headlines were for Ralph Beard, Alex Gross and Walt Woh Jones. They were the leading scorers. Playing the backcourt, Rollins didn't get much opportunity to shoot. But with the stings he has been a revelation, topping off a sound floor game with an accurate jump shot similar to the one employed by Kenny Sailors."

John Palmer, captain of the Knickerbockers, also put in a few good words for Rollins, who was voted UK's Most Valuable Player after the 1946-47 season by his teammates.

"Ken Rollins is fitting in nicely with the Chicago Stags. I think he and our Mel McGaha are the two shiftest dribblers in the BAA."

## Meyer Lauds Rollins

According to Ray Meyer, head cage coach of DePaul University, Rollins is the best play-maker that his teams have ever faced.

Up in the Windy City, the sports-writers have tagged the six-foot, 175-pound Kentuckian, "Racehorse" Rollins. He is the smallest player on the high-flying Stags, who form one of the top professional basketball teams in America today.

Rollins is two inches shorter than any of the other players on the Stags, which incidentally are the youngest team in the league averaging just 25 years of age. The Baltimore Bullets are high with a 26-years-old average per player.

Also on the Chicago cage quintet are the two top players of the famed University of Illinois "Whiz Kids" of a few years ago. They are 6-3 Andy Philip, a forward, and Gen Vance, a 6-3 guard.

Other starters are Ed Mikau, 6-8 center and brother of the great George of the Minneapolis Lakers team, and Max Zaslofsky, a 6-2 forward, formerly of St. John's.

Zaslofsky is the team's high scorer with an average this season of almost 20 points and is immediately behind Mikau and Joe Fulks, ace pivotman of the Philadelphia Warriors, for total points scored in BAA competition. Zaslofsky last year scored 1,007 tallies in 48 tilts for a 20.9 average.

Also on the team is Odie (Sleepy) Spears, a 6-5 forward, who led the Western Kentucky Hilltoppers in scoring last season.

## Gordon Expected To Pace Strong ZBT Cage Team

One of the many strong basketball teams in the intramural competition will be the Zeta Beta Tau (ZBT) fraternity quintet.

The biggest worry of this team will be a shortage of reserves. ZBT will floor a starting five that might give any team in play a good tussle.

Spearhead of the team is expected to be 6-4 Joe Gordon, an All-American from Crofton, Ky. Gordon, who was formerly on UK's B team of 1946-47, was the top high school basketball scorer in Kentucky in his final year at Crofton High for the 1945-46 campaign. That season, the rangy senior tipped in 529 points, scoring 52 in one tilt against Eddyville.

Forwards on the ZBT aggregation will probably be 6-3 Bob Fratman, who made all-city after leading his high school team to the championship of New York City. The other forward will be Sol Weisenberg, who made all-regional while playing for Owenton High.

The guard positions will be handled by Norm Klein and Herbert Marshall. The latter was a starter on the Maysville high team of 1946 which went on to win the State championship.

Klein, a speedy 5-11 player, starred with Louisville Manual High in both football and basketball before coming to UK. He was a halfback for the Wildcat football teams of '41, '46, '47, and '48.

These five should combine to be one of the biggest threats in IM play this winter.

Against the nation's best opposition, the Wildcats have posted a .908 winning average with 139 victories against 14 setbacks during the past five years.

## OPPONENTS SCORING (for the 1947-48 cage season)

## XAVIER

Player	Games	Total Pts.
Mortheast	32	323
McMullen	32	314
Boyle	32	266
Kartholl	32	222
Korb	32	96

## ALABAMA

Schaeffer	26	187
Hamner	27	182
Palmer	22	71
McKenzie	22	69
Steiner	14	67

## OLE MISS

Marshall	23	280
Kelly	23	241
McMullen	23	228
Busby	23	117
Reeves	22	81

## CARIDGANS

The Intramural basketball competition got underway Monday. A total of 41 teams have been entered in play, 26 independent outfits and 18 fraternities. One of the winners Monday was the Phi Delta Theta quintet, who trounced Lambda Chi Alpha, 17-14, in a low-scoring tilt. KEN SCROGGINS, Phi Delta guard, is shown above scoring a goal. Others seen are (left to right) CARL FAITH (LXA); CHARLIE READ (LXA), and JOHNNY OWENS, PDT.

## SAE Has Two Players Back From Last Year

The SAE's diverse, fraternity basketball champs, started the intramural basketball season with only two members from last year's undefeated squad.

Center Doc Ferrell and forward Johnny Crockett were the two veterans in the starting line up which also included Charlie Holland, brother of former Wildcat Joe Holland.

land, Tony Dallas, and Billy Radford.

The SAE's lost their opener to the Deltas, 23-24, on Jack Ballantines last second push shot from the foul circle, but intramural manager Charlie Huston said the team was sure to improve as the season progresses.

Other members of the squad are Buddy Wallace, Lee Truman, Dick Danner, Mae Mayes, Fred Davis, and Dorey Rhodes.

Historians contend that the human being will lose his little toe within the next 50 million years.

## Wildcats Seek 69th Straight Home Win Saturday Against XU

By Bill Hanna

The Kentucky Wildcats will be gunning for their 19th victory of the current season and their 69th consecutive win on the home court tomorrow night when they tangle with the Musketeers from Xavier University of Cincinnati.

The tilt will be the 25th meeting of the teams since the rivalry started in 1934. In this time Xavier has managed to defeat the Cats only twice, those wins coming in 1938 and 1941, while the Big Blue has won 22 games from the boys "from the Hill."

There is little doubt that McMullen will be a great loss to Xavier when he graduates this year, but Coach Hirt may be consoled by the fact that Mae is the only senior in the squad.

The Musketeers have improved rapidly after a slow start this season. In spite of an unimpressive record of eight wins and six losses they show signs of becoming a great team. After holding the mighty Bowling Green to a four point victory, which came via the free throw route in the last four minutes the Muskies turned about and walloped Cincinnati University and the strong Long Island in successive games.

Lew Hirt, serving his third season as Xavier coach, has ten lettermen this year as the nucleus of his squad. Last year Coach Hirt piloted his boys to a successful season of 24 victories and 8 losses and fourth place in the NAIB Tourney at Kansas City.

McMullen At Pivot

One face among the Musketeer quintet will certainly be recognized by members of the Wildcat five. That will be none other than Malcolm McMullen, former Kentucky player. McMullen played for the Cats in

## No. 21 For Saturday

Ticket number 21 of the student activity book will be good for admission to the Xavier game tomorrow night in Alumni gym.

For other contests, it will be

No. 22—Alabama, Feb. 14.

No. 24—Mississippi, Feb. 16.

No. 25—Georgia Tech, Feb. 19.

No. 26—Georgia, Feb. 21.

No. 27—Vanderbilt, Feb. 26.

train from Martin's Ferry has been playing a brand of ball that certainly allows him to live up to the name of Player of the Year.

Tip-off time for the fray tomorrow night is set for 8 o'clock and those students holding tickets No. 21 will get to see the game.

## SEVEN GAMES REMAIN

Seven UK basketball games are set for the 1948-49 season. The Xavier U. tilt at the Cincinnati Gardens was not listed on the Wildcats' original schedule because of the uncertainty of the date of completion of the new arena. However, it now appears that the structure will be finished in time.

Here is the remaining card for the

Cats:

Feb. 12 (Sat.)—Xavier, here

Feb. 14 (Mon.)—Alabama, here

Feb. 16 (Wed.)—Mississippi, here

Feb. 19 (Sat.)—Ga. Tech, here

Feb. 21 (Mon.)—Georgia, here

Feb. 24 (Thurs.)—Xavier, at Cincinnati

Feb. 26 (Sat.)—Vanderbilt, here
